

Ficha del producto

Reglamento Delegado (UE) 812/2013

Nombre o marca comercial del proveedor	Cointra
Identificador del modelo	TL plus 150
Perfil de carga declarado	L
Clase de eficiencia energética del caldeo de agua	C
Eficiencia energética del caldeo de agua	39 %
Consumo anual de electricidad	2 623 kWh
Consumo anual de combustible	- GJ
Otra información	
Ajustes de temperatura del termostato	MAX
Nivel de potencia acústica (en el interior)	15 dB
Precauciones específicas	
Indicación inteligente	The smart function is a software application that learns about the user's consumption, which enables it to minimize heat loss and maximize energy savings. The learning process continues to learn about the user's needs in more detail and changes the temperature every hour to adapt it to the actual demand in order to improve the energy saving. When there is no demand for water, the heater still ensures that there is a reserve supply of hot water available at 45 °C. To ensure that the smart function operates appropriately, do not disconnect the heater from the mains power supply.
